Citizens, Officials Urge Sewer 'Yes' Vote

'Cost Only Pennies if
Federal Aid Accepted,
Dollars if Rejected'

Convinced that Granite City residents have much to gain from passage of this Saturday's sewer election — and much to lose from a defeat — Granite Cityans for Better Sewers reorganized Friday and made plans for intensive efforts this week.

Plans that were developed included distribution of election reminders through Granite City churches yesterday, and a telephone calling program on election eve and election day.

Letters are being sent to voters this week by Mayor Partney and many of the city council members, it was noted.

Members of the citizens' committee for approval of the \$1,900,000 sewer bond issue concluded that taxpayers can protect themselves only by voting "Yes" Saturday.

Expect State Order
The committee is convinced that, if Granite Cityans delay in separating their stormwater and sanitary sewers, the city will be ordered to do so by the state. Such an order would authorize revenue bonds to be issued without voter approval.

If there is a "Yes" vote, general obligation bonds will be issued and individual taxpayers will have to provide only 10 cents of each dollar's worth of sewer improvements.

The cost will be 2% of present property taxes, meaning that the average homeowner would pay only several dimes a month. Apartment dwellers would pay only pennies a month.

In contrast, if there is a "No" vote Saturday, a \$1,900,000 federal grant will be lost, leaving the full sewer cost burden on local property owners. The committee estimated that if a state order is issued and revenue bonds are sold — those who would have to pay might find the charge \$5 a month.

The contrast between paying pennies or dimes a month with a "Yes" vote, or dollars a month with a "No" vote, was cited by Granite Cityans for Better Sewers as indicating the wisdom of a large and favorable voting turnout Saturday.

All Areas to Benefit
Whether a big turnout will materialize is unknown, but the citizens' group emphasizes that every section of Granite City will benefit from approval of the sewer installation proposal.

North Granite, West Granite and Mercer drive — Sanitary sewers will be installed, with financing jointly by the residents of these three sections and by \$100,000 of the \$1,900,000 federal grant. While they will pay the same monthly fee as in Nanticoke, their overall cost will be only about half of what it would be without the grant.

Unit One (the area bounded generally by 20th street, Edwardsville road, the Nameoki stormwater channel and the rail-

Tavern Watchdog Shot, Loot Recovered

Granite City police are having a ballistics test made on a .38 caliber revolver found in a taxi cab after it was discovered a German shepherd watchdog at the Lone Acres tavern, 1389 Edwardsville road, had been shot and killed and the tavern looted.

It was about 3 a.m. Saturday when police on a routine patrol saw a car speed away from the tavern and gave chase. The car was abandoned at about 13th and Meridian street in Tri-City Park, and three men were seen to jump out and run in different directions into the darkness.

Other patrol cars discovered the dog that was guarding the rear door at the tavern had been killed and a rear window smashed to gain entry.

In the abandoned car with Missouri license, police found three cases of whisky, a case of gin, seven pints of open whisky, three bottles of vodka and 22 bottles of assorted whisky, along with 15 rolls of pennies, \$8 in half dollars, \$11 in quarters and dimes and nickels.

The car was towed away as the department's canine patrol took over.

A patrolling officer saw a man dash out of the darkness and hail a passing taxicab at 14th street

and Edwardsville road. The cab Hartman. Bond was set at \$10,000 for a woman in St. Louis county, was Kenneth Wayne Burcham, 36, of 2240 Jefferson avenue.

The abandoned auto was traced to a woman in St. Louis county, who later Saturday reported it burglarly on a warrant signed by Assistant State's Atty. Lawrence had been stolen.

Hospital Board Meeting Today to Discuss Drive

Members of the lay advisory board of St. Elizabeth Hospital are meeting this afternoon and are expected to determine further steps to be taken toward hitting the \$1,500,000 challenge goal in the hospital's campaign to expand and modernize its present facilities.

While the minimum goal of \$1,000,000 has been topped, it is hoped the challenge goal can be met so that 50 medical-surgical beds can be included in the new wing. Construction of the new annex along the west side of Iowa street is to be started this year.

Volunteer workers obtaining additional pledges are being asked to turn them in as soon as possible to the campaign headquarters, 1920 Edison avenue.

Police Chief Veizer announced two weeks ago the crackdown would start today. The \$3 windshield stickers are on sale in

REV. E. S. HOWLETT

Doctor of Divinity Degree is Awarded Rev. E. S. Howlett

The Rev. E. Stanley Howlett, recently appointed pastor of the True-Light Baptist Church, 2838 Dickson street, was awarded an honorary Doctor of Divinity Degree by the Mississippi Baptist Seminary in Jackson, Miss., on Friday.

The Rev. Mr. Howlett was awarded the degree for his great contribution to the welfare of his fellowman and his inspirational leadership in the Southern Tabernacle Missionary Baptist Church in Brooklyn, where he formerly served as pastor. In 1962, he led a successful financial campaign for \$90,000 to rebuild the Southern Tabernacle Missionary Baptist Church, which was then in dilapidated condition. Under his leadership, the 300-member congregation raised \$40,000. Executives of Granite City Steel Co., where he and many of the church members are employed, and other civic leaders raised an additional \$50,000 for the church. The new church was dedicated in December 1966.

The Rev. Mr. Howlett said the new church was an object lesson in human goodness and in human relations. He said the building campaign was an example of the type of cooperation which builds respect and a feeling of brotherhood between the races.

The Rev. Mr. Howlett is a former Golden Gloves champion who once fought Sonny Liston.

Mrs. Lynn is Honored For 44 Years Teaching

Mrs. Edna Lynn, who concluded 44 years service as a teacher in the Granite City school system Friday, was honored at an appreciation luncheon given by Niedringhaus Parent-Teachers Association at the Rose Bowl restaurant.

The honored guest has been a member of the Niedringhaus grade school teaching staff since shortly after the building was opened. Sharing honors with her were other members of the school faculty, including Mrs. Vivian Dine, who is being transferred to another school.

David Smith, Niedringhaus PTA president introduced B. J. Davis, school superintendent, and members of the PTA executive board, Mrs. Gladys Pape, Mrs. Janice Stanton, Mrs. Mary Elmore and Gladwell Kraus.

During the recognition ceremony, Supt. Davis presented a certificate of merit and appreciation to Mrs. Lynn from the board of education.

Among several other gifts received by the retiree were a plaque and personal gift from the PTA unit and 44 one-dollar bills, symbolic of the "dollar-a-year" for each year of service to the school. The latter were presented by Gerald Bushue, Niedringhaus principal, on behalf of the school personnel.

Recalling highlights of her teaching career, Mrs. Lynn related that she started in the local school district at the old Liberty School. At that time, she pointed out, the school building was a converted three-room saloon. The honoree explained on

many occasions teachers were called upon to participate in plays and musical comedies, presented for the public by the Rogers Producing Co.

Married to Roy M. Lynn in 1943, Mrs. Lynn said she resigned her teaching post as was customary during that period. Due to an acute shortage of teachers, however, her resignation was not accepted and she continued as a member of the Niedringhaus faculty.

Monetary gifts of appreciation also were presented by the PTA unit to Bushue, Mrs. Ellen G. Hoffman, school secretary, Paul Dineff and Thomas Brannan. All were members of the PTA.

Mrs. Dine also was honored with a gift from Mrs. Mary Lockhart, who served as school picnic chairman, received a corsage, Mrs. Pape offered the benediction. Arrangements for the affair were supervised by Mrs. Stanton and Mrs. Elmore.

Others who were present were Roy M. Lynn, Mrs. Lanita Frizzo, Mrs. Patricia Maxey, Mrs. Ida Mae Weiss, Mrs. Cheryl McCoy, Mrs. Joyce Albers, Mrs. Elizabeth Edwards, Mrs. Jennie Lawrence, Mrs. Mary Alice Rogers, Mrs. Geraldine Berry, Mrs. Gladys Schubert, Mrs. Laurie Reiske, Mrs. Paula Suroff, Mrs. Pauline Reading, Mrs. Verna Bergthier, Mrs. Helen Niepert, Miss Ronella Kinney, Miss Louise Dexheimer, Miss Margaret Barker, Miss Virginia Segar, B. Family Placed on Probation

Court backing for Granite City schools' crackdown on truancy Thursday in the court of Magistrate Johnson at Edwardsville. The case involved the mother of two sisters who are local junior high school students.

The family was placed on probation, with five stipulations that must be met to avoid a more severe penalty.

The probation order specified that the students must be home by 8:30 p.m. Sunday through Thursday and by 10:30 p.m. each Friday and Saturday; all federal, state and city laws must be complied with; the girls are to attend summer school; they must attend regular school duty, with no absences except with a written report from a doctor or with the probation officer's permission; and the girls must comply with all rules of the school district and their home.

Truant Officer James Lowder, under the supervision of Supt. Bob J. Davis and the direction of the school board, has been working to encourage regular attendance.

In some cases, families have failed to see the value of school attendance, and a "get tough" policy is being followed to enforce the law that requires such attendance.

Court follow-through such as that obtained Thursday is to be sought in other cases unless there is compliance, school officials report.

NLRB Rules for Union At Blast Furnace

The National Labor Relations Board in Washington ruled Friday, subject to review, that Granite City Steel Co. "rescind the unilateral changes in grievance practices and procedure instituted on Sept. 7, 1966," and notify Local 50, International Chemical Workers Union, at the blast furnace plant.

Samuel M. Singer, NLRB trial examiner, said the recommended order is for the steel firm to "Cease and desist from failing and refusing to bargain collectively with Local 50 by unilateral instituting or changing grievance practices or procedure . . . without prior consultation and bargaining with the union."

The union charged the company violated the unfair labor practices of the Act in refusing unlimited access to the plant property by union officials, including the business representative of the union, when the written contractual grievance clause specifically contemplates the union agent's participation in the grievance procedure.

The union contended a former union officer, now a company supervisor, was given unlimited access to the plant with his auto and that the new business agent was refused permission.

Richmond Dennis Named Laclede Vice-President

Court backing for Granite City schools' crackdown on truancy Thursday in the court of Magistrate Johnson at Edwardsville. The case involved the mother of two sisters who are local junior high school students.

The family was placed on probation, with five stipulations that must be met to avoid a more severe penalty.

The probation order specified that the students must be home by 8:30 p.m. Sunday through Thursday and by 10:30 p.m. each Friday and Saturday; all federal, state and city laws must be complied with; the girls are to attend summer school; they must attend regular school duty, with no absences except with a written report from a doctor or with the probation officer's permission; and the girls must comply with all rules of the school district and their home.

Truant Officer James Lowder, under the supervision of Supt. Bob J. Davis and the direction of the school board, has been working to encourage regular attendance.

In some cases, families have failed to see the value of school attendance, and a "get tough" policy is being followed to enforce the law that requires such attendance.

Court follow-through such as that obtained Thursday is to be sought in other cases unless there is compliance, school officials report.

SIU-SW Campus

Communications Bldg. Dedication Today

A full program of events to dedicate the new \$3.5 million Communications Building at Southern Illinois University's Southwest campus got under way at noon today with a luncheon in the University Center, and was to continue throughout this afternoon and tonight.

Dr. Delyte W. Morris, SIU president, is the speaker for the luncheon program. A panel discussion on the subject "The University and the New Media" is to open at 2 p.m., featuring five representatives of the metropolitan area news media as panelists.

Panelists include Carl Baldwin, veteran reporter of the St. Louis Post-Dispatch; Max Roby of KMOX-TV News department; Robert Hillard, of Fleischman-Hillard, Inc., St. Louis public relations agency; Steve Cousley of the Alton Evening Telegraph and A. J. Mueller Jr., general manager of the Granite City Press-Record.

John Hightower is Speaker. The dedication workshop, co-sponsored by SIU-SW and the Granite City Press-Record, will highlight an address tonight by John M. Hightower, diplomatic reporter of the Associated Press at Washington for 25 years and one of only five men ever to carry the title of special correspondent of the Associated Press will be the featured speaker tonight. Hightower arrived by plane last night and was a guest at the opening luncheon session at noon today.

Following the conclusion of the panel discussion at 2:15 p.m., Hightower will take part in a press conference with members of the area's news media and delegates of university and area high school journalism groups. Students from 36 area high schools who are interested in journalism have been invited to attend the dedication events.

The press conference is to begin at 3:30 p.m. and continue until 4:30 p.m. Both the panel discussion and press conference are to be held in the Communications Building. Both are open to the public without charge.

Theme of the workshop program is directed toward training of personnel in the communications field with emphasis upon the need of expanded journalism instruction at the Southwest campus which now lacks what is considered an adequate department of journalism. The University, in fact, plans no summer journalism classes this year, although efforts are being made to bring to Southwest campus a fulltime professor of journalism.

Blundy Again Wins 1st In T-C Speedway Feature

It was Blundy night again at the Tri-City Speedway Friday night, as Jerry Blundy of Galesburg won the feature event, making it three in a row for the speedway star at the local plant.

Thirty-seven super-modified sprints were on hand for Friday's program. A small crowd was on hand for the cool night of racing but lots of action made up for the cool temperature.

The only accident took place in the warm-up laps when the car of Don Scroggins of Jerseyville caught fire in the third turn. Scroggins was taken to St. Elizabeth Hospital where he was treated for burns to the leg, arm and hand.

Following Blundy in the seventh event were Larry Cannon of Danville, Tom Corbin of Carrollton, Ronnie Taylor of St. Louis, Gene Hammer of Fosterburg, Bill Meyers of Wood River, Loren Salomon of St. Charles, Charlie Amann of Benton, Bert Wilson of St. Louis, Jack Zeigler of Mir-shall and Ernie Sanders of St. Mo.

Miss Carol Bischoff becomes Bride of Roger W. Russell

MRS. ROGER W. RUSSELL, (Carol Bischoff), A daughter of Mr. and Mrs. C. Howard Bischoff, 1603 Amos avenue, her wedding was an event of Saturday evening, taking place at the Nameoki Methodist Church.

Lighted candles in candelabra, arrangements of yellow gladioli and white "mums, greenery and white ribbons marking the pews provided the setting Saturday evening for the wedding at Nameoki Methodist Church of Miss Carol Bischoff, a daughter of Mr. and Mrs. C. Howard Bischoff, 1603 Amos avenue, and Roger W. Russell, whose parents are Mr. and Mrs. R. B. Russell, 1848 Spring avenue.

The Rev. Frank Pierce performed the double-ring ceremony at 7:30. Mrs. Edna Hensley presided at the organ and the soloist, Roderick Key, sang "Wedding Prayer," "O Perfect Love" and the Lord's Prayer. The candles were lighted by Susan Russell, a sister of the bridegroom, and John Wheeler, the bride's cousin.

Escorted by her father, the bride wore an A-line silhouette of silk organza and imported Alençon lace. The modified Empire waistline was embellished with seed pearls and crystals on the re-embroidered lace of the semi-scoop neckline and elbow sleeves.

A full court train of organza was detailed with re-embroidered lace and bordered with the lace. It was detachable, falling from beneath a collar of lace.

A veil of imported illusion was secured with a coronet of lace outlined with shimmering pearl and crystal loops.

The bride carried a cascade bouquet of orchids, stephanotis and leather leaf greenery. Mrs. Nancy Leach, a sister of the bride, was matron of honor.

serving with Mrs. Margaret Kalmeyer, another sister, Mrs. Pamela York, the bridegroom's sister, and Mrs. Sally Basarich, bridesmaids.

Their identical gowns, mint green cages, were fashioned of dotted lace over linen. The Empire waists with scoop necks and short sleeves had linen bows at the bustlines and bias-bordered hemlines. Headpieces were of organza loops with clusters of seed pearls in the center and triple bouffant shoulder veils.

All four carried crescent bouquets of yellow gladioli with glanella centers.

A little flower girl, Dana York, the bridegroom's niece, wore a short dress of yellow organza and carried a basket of yellow rose petals.

George Backhaus was best man, and Donald Kalmeyer, Steven Leach, Charles York, Bert Rose and Alex Kovach served as groomsmen and ushers.

Mrs. Bischoff chose a sheath dress of aquamarine with a matching jacket of shantung and lace and a corsage of gardenias and pink roses. The bridegroom's mother was in aqua also. Sister Mary Ellen Steinhauser and Charlotte Atkinson and Mrs. Dorothy Luckert.

A reception was held at the church immediately after the ceremony. Assisting were Misses Mary Ellen Steinhauser and Charlotte Atkinson and Mrs. Dorothy Luckert.

The bride is employed by Price Waterhouse & Co., St. Louis. Mr. Russell is attending McKendree College, Lebanon, studying for the ministry. Both are graduates of Granite City high school.

The newlyweds will honeymoon in Wisconsin. The rehearsal dinner was given by the bridegroom's parents at the Church Friday evening.

Navy Mothers Enroll Member

Quad-City Navy Mothers 850 met Thursday evening at the VFW hall under the direction of the new commander, Mrs. Hazel Jones.

Mrs. Margaret Jones was a new member enrolled and during the business hour \$10 was contributed to the local Mental Health Center, \$10 to the Crippled Children's Camp, \$10 to the ship "Hope" and \$100 for civic welfare.

The mystery package was awarded to Mrs. Frances Westbrook, and plans were made to meet again June 15.

JUNE BRIDE, Mrs. Gary L. McConnell, a bride of Saturday, before her marriage at Sacred Heart Catholic Church she was Rita Lynn Moore, a daughter of Mr. and Mrs. James R. Moore, 2611 Benton street.

McConnell-Moore Vows Said Saturday at Sacred Heart

Miss Rita Lynn Moore and Gary Lane McConnell exchanged wedding vows in a ceremony taking place Saturday morning at Sacred Heart Catholic Church. Their parents are Mr. and Mrs. James R. Moore, 2611 Benton street, and Mr. and Mrs. Charles P. McConnell, 3013 Wayne avenue.

The double-ring ceremony was performed at 11 o'clock by the Rev. Walter MacPherson before the altar decorated with bouquets of white flowers.

A program of wedding music was furnished by Mrs. George Crawshaw, organist, and Mrs. James Worthen, vocalist. The songs were "Ave Maria," "O Perfect Love," "Wedding March" and "O Jesus We Adore Thee." Given in marriage by her father, the bride wore a white crepe sheath dress with a lace bodice, long sleeves and an Empire type waist.

The detachable chapel train fell from the shoulders. A bouquet tied with of imported silk illusion was secured with a forward headpiece of pearls and fabric, and the bride carried white orchids and ivy on a white missal.

Miss Cathy Larner, maid of honor, and Miss Sharon Hoson, bridesmaid, were attired alike in floor-length yellow linen and lace dresses with Empire bodices and linen bows in the front. Petals

headpieces held in place circular nose veils which fell to the hemlines in the back.

They carried yellow and orange pom poms. Lynn Marie and Craig Alan Schmidt, cousins of the bride, were flower girl and ring bearer. The former wore a white nylon dress with a full gathered skirt and sash and a white headband. She carried a basket of roses.

For her daughter's wedding, Mrs. Moore chose a two-piece beige dress with beige accessories, while the bridegroom's mother wore a champagne dress and matching coat with green accessories. Both had cymbidium orchid corsages.

Charles L. McConnell was his brother's best man, and Bernard Menemeyer, a cousin of the bride, Clifton Adams, another cousin, and Keith Garner served as groomsmen and ushers.

A reception was held in the afternoon at Kirkpatrick Homes recreation hall, and the newlyweds left afterward for a honeymoon in the Missouri Ozarks.

Both young people are graduates of Granite City high school, and the bridegroom is employed as an IBM customer engineer in St. Louis. The former Miss Moore is employed by a St. Louis bank.

The rehearsal dinner was given by the bridegroom's parents at the Round Table restaurant in Collinsville Thursday evening.

School's Out—Motorists, Children Urged to be Cautious

Chances of children being struck by cars are greater now that schools are closed for the summer, AAA officials stressed today.

Teachers stress safety for nine months each year, but parents must take over this life-protection responsibility during vacation time, according to the AAA Automobile Club, Illinois Division.

Parents should warn children to stay out of streets, to be

aware of traffic when they do come near streets and to play only in yards or playgrounds.

Motorists also share in the responsibility of protecting youngsters.

The Auto Club says a child chasing a ball is not likely to stop to look both ways before running into a street. Drivers must watch for children at play and take extra precautions in driving, especially in residential areas.

Motorists also should remember that children are out on bicycles, roller skates and scooters during the day, when they normally are in school.

The driver who expects to see a youngster in his path is prepared to stop short of tragedy. Parents should warn their children that drivers cannot always see them in time to stop, and the AAA, especially if they depart from between parked cars into busy streets.

Even residential areas can become hazardous if children do not watch out for vehicles. A driver may be temporarily blinded by the sun and fail to see a child dash off the curb.

Children should be taught to look both ways before crossing any street, and to walk, not run from the curb. If there are no sidewalks, children should always walk on the left, facing traffic.

Safety rules cannot be repeated too often to children, says the Auto Club.

Madison and Venice Summer Recreation Program Begins

A summer recreation program began today in Madison and Venice under joint sponsorship of the two school districts and two cities, with the cooperation of the Venice park district.

No adult volunteers will be utilized, Madison School Supt. Raymond Dragich said.

He also stressed that all ages six to 16 will be accepted every day, Mondays through Fridays, and at all times, 9 a.m. to noon and 1 p.m. to 4 p.m. An earlier announcement by the Economic Opportunity Commission had listed morning hours for younger children and afternoons for older youngsters.

As now set up, the 11-week program supervised by Stanley Serwatka, a Madison junior high school coach, will be operated by eight high school students plus about 50 Neighborhood Youth Corps members.

Training of the staff took place Wednesday, Thursday and Friday of last week.

Lee Park in Venice is to be utilized for the program along with Dunbar school, the West Madison recreation center, Madison senior high school, Lee Wright Homes, the Twelfth street recreation grounds and the Madison recreation center.

Plans include visits to cultural and historical sites and a major league baseball game.

U of I Sponsored

College House Director Training Program is Set

Fifth annual training program for present and prospective college house directors will be held June 19-30 at the University of Illinois, Urbana.

Calling the position of a house director "a demanding one," Dr. Miriam A. Shelden, dean of women, said it requires "excellent health, a broad cultural and educational background, and a marked ability to live and work happily with others."

Applicants for the U. of I. program should be under age 62, in good health (as attested by a physician's statement), able to submit references, and with some formal education beyond high school.

Faculty for the training program will include University of Illinois staff members from the Dean of Students' Office, the Health Service, the College of Education, the Office of Admissions and Records, the department of home economics, the department of speech, the College of Agriculture, the Safety Council's Office, and the Security Office. Their presentations will be augmented with discussions by students and by active house directors.

Topics will cover the responsibilities of the house director in a student living group—fraternity, sorority, independent privately operated house or dormitory, or University residence hall.

These responsibilities include counseling, student activities, house management, student health, current student thinking, menu planning and food purchasing, physical safety and discipline.

Participants will live together in Weston Hall, a University student residence. This will provide

practical experience in group living, and the facilities and services of the residence hall will serve to illustrate the material discussed in the classroom.

Cost will be \$300, which includes the registration fee, tuition and room and meals in Weston Hall.

Women who complete the work satisfactorily will be awarded certificates by the Division of University Extension, which is working with the Office of the Dean of Women in conducting the course.

Referral of qualified participants to interested employers is part of the program. "Graduates" of the four previous House Director Training Program at the University of Illinois now are serving at colleges and universities from Massachusetts to California.

Pattern of Test

During the test, the sirens will sound a one-minute "Tornado Alert" signal—a steady blast—followed by one minute of silence and concluding with a one-minute sounding of the "Take Cover" signal—a wavering or undulating sound.

In an official tornado alert, the "Alert" signal will be sounded from three-to-five minutes. Koenig pointed out, while the "Take Cover" signal will last a full three minutes.

The director explained that Illinois civil defense public warning instructions state that a three-to-five minute steady blast on the sirens may be sounded for legal tornado warnings. Use of the sirens for severe weather forecasts or tornado watches is not permitted, he said.

"Anyone hearing the alert signal should turn on their radio to an emergency channel, as danger is possible, and additional information will be transmitted," Koenig said.

Difference in Signals

Pointing out the difference between the "Alert" and "Take Cover" signals, Koenig said the "Take Cover" warning is a three-minute wavering, undulating tone or intermittent blasts.

In the event a "Take Cover" signal is sounded, the official explained all residents should take immediate cover in the nearest fallout shelter, not forgetting to take with them an A/M portable radio and personal supplies that may be needed, including medicine or special food.

All seven siren units are expected to function satisfactorily in tomorrow's test, Koenig said. Within the past two weeks, two "low growl" tests have been carried out in preparation for the test exercise. Malfunctions in the contact switches on two of the units are believed to be corrected.

Primary responsibility for activating the local warning system rests with the Granite City police department, Koenig said. Special equipment has been installed at police headquarters which provides direct hookup with the Tri-County Mutual Aid Civil Defense Operations Center at Swansea, Ill.; the District 11 state police headquarters; and Madison county sheriff's office.

Direct channels from Swansea to the U. S. Weather Bureau's dissemination points permit im-

Navy Airman Steward

Returns from Cruise

Airman John H. Steward, USN, son of Mr. and Mrs. John H. Steward of 4049 Lakeview drive, has returned to Mayport, Fla., aboard the attack carrier USS Shangri-la, after an eight-month deployment to the Mediterranean.

While at sea, he performs one of the widely diversified duties required of carrier men, helping to maintain the Shangri-la and its air wing at peak readiness. He has seen much of the Mediterranean and its bordering countries during the deployment. Between operations the ship visited Spain, France, Italy, Greece, Turkey, and Malta. The 23-year old carrier saw action in the Pacific Theater during world war II and was a unit of the Pacific Fleet until 1960.

mediate transmittance of current to the weather reports to local communities, the director explained.

The event a national emergency is declared, Koenig pointed out the same relay system of dissemination warning of possible enemy attack to local communities is used. Direct lines connect the Swansea operations center to NAWAS (National Warning System), an extension of the military warning and detection systems that feed into Combat Operations Center of the North American Air Defense Command at Colorado Springs, Colo., the director said.

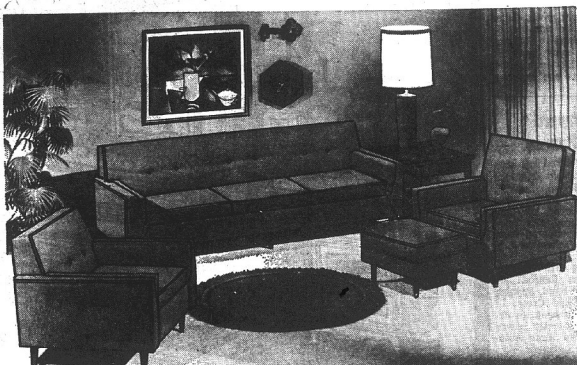

Sirens are located atop the Granite City Steel Co. office on Terrace lane, between Oak building, 20th and State streets; alley between State street and Grand avenue, near 28th street; Edwards street, near Anchorage drive; Stearns avenue, south of Pontoon road; and Ash avenue near Glen drive.

In addition to the local warning system, tomorrow's test will include sounding of the siren at the Granite City Army Depot.

ABOUT THIS QUESTION:

"I've been told that property damage will be paid-out at its depreciated value, but rather at full replacement cost. If insurance is maintained to at least 85% of full value, does the replacement cost provision now apply to permanent fixtures as well as to the building itself?"

Commission Donates \$300 To Playground Project

The Granite City Mexican Honorary Commission authorized an initial contribution of \$300 to a "playground fund," the project being spearheaded by the group to establish a children's play-ground area on Olive street in Lincoln place.

The action was taken yesterday at a meeting of the commission held in the Granite City Jaycee building on Poplar street. More than 60 members and families attended the business session, which preceded an afternoon of music and refreshments.

Steve Ortiz, commission president, appointed Mrs. Antonia Lopez as corresponding secretary and Joseph Gonzales to be the arrangement committee for the group's annual picnic, set for later this summer.

Louis Becerra was delegated responsibility for forming a committee to assist in the renovation of a Lincoln Place building, which was recently destroyed by fire.

Reports given by committee chairmen noted the success of the annual fiesta and the group welcomed six new members.

State Doesn't Want County to Adopt Clean Air Law Now

A state air pollution control official is recommending that Madison county stay out of the field—at least for the present—to give the state board time to develop regulations.

The suggestion was made Thursday night when Robert French, chief of the Illinois Bureau of Air Pollution Control, appeared before the county board's Air Pollution committee.

French said the county's action could "confuse and delay abatement . . . by creating another agency for industries and others to deal with."

An air pollution control official said the county apparently does not have technical capability to enforce a program. The state official said a county program at this time could be detrimental to the state's program. He added that it will take three to five years under the state's present regulations to reduce air pollution significantly in the county.

The county board committee is to make a recommendation in the near future on the air pollution control ordinance prepared by State's Atty. Leon Scroggins.

Mrs. McLean, Former GC Resident, Killed

Mrs. Bonnie Sheppard McLean, 48, of Edwardsville, formerly of Granite City, was killed at about 2:30 p.m. Sunday when the family auto was struck by a Norfolk & Western freight train on Center Grove off Route 159 about 1½ miles south of Edwardsville.

The auto stalled on the tracks as the train approached. Her husband, Robert C. McLean sr., who was driving, and a daughter, Miss Margaret McLean, were able to jump out in time.

Mrs. McLean was thrown about 20 feet, and the auto was dragged several blocks, according to deputy coroner Philip H. Weber, who pronounced her dead at the scene. An inquest is pending.

Born in Granite City, Mrs. McLean moved to Edwardsville 28 years ago. She was a member of St. Boniface Church there, its Altar Society and the Daughters of Isabella.

Besides her husband, she is survived by a son, Robert C. McLean jr., of Edwardsville, four daughters, Mrs. Richard (Maurine) Brumm, of Champaign; Mrs. James (Susan) West, of Rolla, Mo.; and Miss Lynn McLean, both of Edwardsville; and a sister, Mrs. William (Alice) Stranghansen, of Granite City.

An obituary notice appears elsewhere in this issue.

County Tavern Hours Study Now Under Way

Leon Scroggins, Madison county state's attorney, is studying a proposed ordinance to set definite closing hours for taverns, especially those which sell food.

The existing county liquor control ordinance does not specifically define closing hours and presents enforcement problems for the county sheriff's office, it was reported. Scroggins is to present a report to the county liquor committee on Thursday.

Groups Aiding India During Famine

(U. S. Department of State)
I recently read that the famine in India may take the lives of one to two million people. If this is true I would assume that there is a special food fund for India. I have contacted newspapers and they have no information about such a fund. If there is such a fund, it would like to make a contribution to it.

Please send me information concerning the proper channels for making contributions to India. D. F. R.
Dear Mr. R.:
Your desire to help is gratifying. We suggest you contact one of the private American voluntary agencies which not only distribute food to the hungry and destitute, but aid in relief programs and self-help efforts.

Our most active on-going programs among these organizations are with CARE, 500 First Avenue, New York, N. Y. 10016; Catholic Relief Services, 359 Fifth Avenue, New York, N. Y. 10001; and UNICEF (United Nations Plaza, New York, N. Y.). Again, thank you for your letter; your concern is greatly appreciated.

This summer we will have our centennial celebration here in Alaska. I have doubts about one fact: the purchase price of Alaska from the Russians.

I have a reference book which says that we owed Russia \$5,000,000 for their help in protecting our coasts when the United States was fighting the Civil War, and that

the purchase price was \$10,000,000. I have doubts about one fact: the purchase price of Alaska from the Russians.

This aid was necessary to prevent the British and French from running the North's blockade.

The Treasury draft to Russia was made out for \$750,000, but if our debt to Russia was included, we only paid \$1,400,000 for Alaska. Could you clarify the actual purchase price?

R. V. A., Fairbanks, Alaska
Dear Mr. A.:
A search of the files of the Department has disclosed no evidence that a portion of the purchase price served as compensation for the visit of the Russian fleet to the U. S. during the Civil War.

Furthermore, the records do not indicate that the visit of the Russian fleet to the ports of San Francisco and New York was for the purpose of strengthening the Union blockade of our southern coast.

Indeed, research in the files of the Russian Foreign Ministry by an unofficial scholar, Frank A. Godwin, New York, N. Y. 10001, and UNICEF (United Nations Plaza, New York, N. Y.). Again, thank you for your letter; your concern is greatly appreciated.

In this connection you may wish to read Godwin's article entitled "The Russian Fleet and the U. S. Coast Guard" in the Historical Review, volume XX (1914-1915), pages 801-812.

for just such a step-up in sewage treatment, which will be mandatory for cities like Granite City.

"If we act now, federal funds will greatly reduce our cost. If we delay, we may have to pay the full cost ourselves. The present \$1,500,000 grant must be used now or it will be lost."

All of the foregoing is true. It indicates strongly that Granite City must act affirmatively this week or face a much bigger burden on their pocketbooks.

To keep laws from getting out of hand, and to take a big "first step" in the worthwhile causes of health and community progress, Granite City has no reasonable choice other than to vote "Yes" for the better sewers Saturday.

There will be "Yes" votes. The big question is whether there will be enough "Yes" votes. The best way to assure this would be for all taxpayers to "run" and cast a truly large vote in this Saturday's special election.

Nothing less will assure a victory for the people. It can be done, if voters will remember the stern lessons of past apathy and make sure they give a better account of themselves.

Nothing Granite Cityans can do Saturday will be as important to their future as including a vote by their polling place, and an X for "Yes" on their sewer bond ballot.

Deserved Honors for Fr. Engelbert On His Golden Jubilee as Priest

Rev. Engelbert Bieneck, pastor of St. Mary's parish in Madison for more than 31 of his 35 years, ranks high in any list of beloved Quad-Cityans, whether churchmen or laymen.

On the 50th anniversary of his ordination as a Catholic priest, Father Engelbert, as he is known by young and old, is being accorded well-deserved honors. During his pastorate here, a Franciscan friary has been established, a new convent has been provided for the sisters who operate St. Mary's hospital, a unique circular auditorium church has been built, and the parish has progressed in many other respects.

All join in congratulating him on achieving such a key milestone in his service to God and mankind.

Proper Ban On Outrage Activities by Judges

Illinois legislators are wise in moving to bar judges from serving as officers of private companies, a practice that has consumed much of the time of some jurists.

The proposed new downstate yearly pay schedule, starting at \$27,500 for the lowest judges, \$35,000 for appellate judges, \$25,000 for circuit judges, \$23,500 for associate circuit judges and \$15,000 for magistrates provides sizable raises and affords salaries that compare well with those of their counterparts in other states.

More important, a judge must be sufficiently removed from the issues confronting him that he can render objective judgments. It is appropriate that the General Assembly is endeavoring to remedy a situation prompting numerous complaints of abuse of judicial positions.

It seems strange that the man who has money to burn cannot take it with him.

whole area.

Never was a truer statement made than that which says that the pollution control program that is being established in the metropolitan area of St. Louis, Mo., is the final form of a political enforcement agency. And, this will require time.

I have been discussing more or less at random many phases of the problem of air pollution control. The controls and program should not only be designed to clean up and abate the nuisance, but also to do this in a manner that is palatable and understandable to the voters.

You must have authority to do an acceptable job. But it is not enough that this authority be blatantly used.

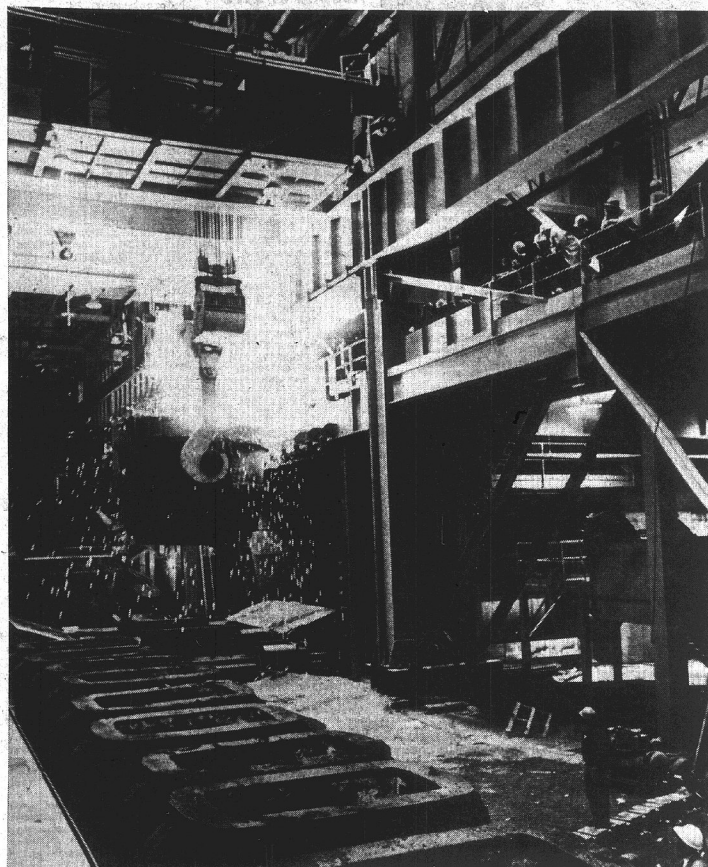

One should consider those with whom he is dealing as knowledgeable and intelligent. They are fully aware of your authority, and threats are not usually a good idea. They know that you will have the last laugh.

Ingredients of Success

If one were to briefly sum up some of the necessary ingredients of a successful program, they would be, not in the order of priority:

THE OXYGEN BLOW which lasts about 20 minutes in which the oxygen lance (not visible through the glare) is a water-cooled steel tube, 60 feet long and about 11 inches in diameter. Cooling water circulates

through the lance at a rate of 900 gallons per minute. The lance is lowered inside the furnace to a position five to 10 feet above the molten bath of scrap and pig iron while pure oxygen is blasted into the mixture.

will be temporarily displaced. The number will not exceed 300 and may be less, he said. There are approximately 5100 men and women employed at Granite City Steel.

The basic oxygen process for steelmaking has manifested unusually rapid growth as a result of its speed and efficiency and it is estimated that the annual steelmaking capacity in basic oxygen furnaces in the U. S. will be about 50,000,000 tons by the end of this year—compared with less than 1,000,000 tons 10 years ago.

In this process a large vessel

is loaded with molten iron and scrap. A water-cooled lance is lowered into the top of the vessel and high purity oxygen is injected into the melt at supersonic speed. This high volume of 99.5% purity oxygen quickly burns off the unwanted elements in the furnace charge of molten iron and scrap.

The basic oxygen process turns out a higher quality carbon steel in the grades made at Granite City Steel and the steel is more ductile. The use of a computer to guide the process, one of the first in the industry, will provide unusually tight control over chemical and physical qualities of the company's flat rolled steel products.

Granite City Steel manufactures plate, hot and cold rolled sheet, galvanized sheet and other flat rolled steel products for a 25-state market area.

Optimists Hear Talk On Leadership

Dr. Howard D. Southwood, dean of the Education Division at Southern Illinois University-Southern campus, discussed the subject, "Antony of Leadership," when he addressed Granite City Optimists at their luncheon Thursday. Twenty-two members attended the meeting in the YMCA.

The guest speaker, who formerly was employed as director of education and training at Union Starch & Refining Co., presented an outline of the general qualities desired in leaders in any type of organization or field of endeavor. He was introduced by Dr. Raymond D. Troyer, also a member of the SIU-SW faculty.

Wilbert Tribes, Optimist president, announced final plans for the club's annual installation dinner-dance, to take place at 7 p.m. Thursday in the Granite City Army Depot Officers' Club. In conjunction with the installation, Tribes said, Col. Charles E. ADC Costs Boost Payment Of Public Aid in County

A sharp increase in the number of recipients of Aid to Dependent Children funds from the Illinois Public Aid Commission during March boosted Madison county's total aid allotment by \$17,028 over the February payments, according to a report by Illinois Public Aid Director Harold O. Swank.

March payments in all categories of public aid in Madison county amounted to \$419,978 distributed to 8162 recipients in all forms of aid, the report said. In February, 7783 recipients in Madison county received \$402,950.

The ADC payments in Madison county during March actually were higher than the overall increase, with 4766 clients receiving \$227,817, compared to February city payments of \$208,298 to 4503 clients. This is an increase of \$19,519 in ADC March payments, but the figure was offset to the \$17,028 overall increase by slight reductions in other categories of public aid.

Assistance Clients Increase

The number of recipients of general assistance payments also increased substantially from 1169 in February to 1289—an increase of 134 clients—but the March payments to the greater number of clients was less than the amount paid for general assistance in February.

The public aid director reported that general assistance payments in March amounted to \$27,494 for the 1289 clients while those in February amounted to \$29,725 for the lesser number of 1169 clients.

Payments to Madison county recipients of old age pension funds remained almost steady. March allotments amounted to \$87,332 to 1440 recipients, compared to \$87,468 paid to 1437
